Pompey's trial, 61 B. C.  
John McCloskey made first American cardinal, 1875.

## FIFTY BEAUTIFUL YEARS.

On the 28th of September, 1839, Frances E. Willard was fifty years old. These fifty years have been years of usefulness and beauty. The celebration of Miss Willard's birthday took place at Evanston, her home, on Saturday. Early in the morning messages of love and congratulation began to pour in and continued to do so all during the day. John G. Whittier, the Quaker poet, sent "loving and gratifying congratulations to Frances E. Willard on her birthday." Mary A. Livermore sent a telegram of the same tenor. Letters were read from Susan B. Anthony, the Rev. Theodore D. Cuyler, D. D., of Brooklyn; the Rev. Lyman Abbott, D. D., of Plymouth church, Brooklyn; ex-President Rutherford B. Hayes; the Hon. Neal Dow, of Maine; the Rev. Joseph Cook, of Boston; and the Hon. Clinton B. Fisk, of New Jersey.

It was a gala day in the beautiful town of Evanston. The public gathering took place in the auditorium of the First Methodist church. The audience was a vast one, and when Miss Willard entered the church and began her march down the aisle, she was given an ovation seldom paid to women. In this grand and fitting demonstration there was no denominational line drawn. All the churches in the town heartily joined in the splendid spirit of the hour. Songs were sung, addresses were made, poems were read and congratulatory letters and messages were read from all over the Union. The following resolutions were presented in the name of the citizens of Evanston:

WHEREAS, In an age of grand achievement in the various fields of development and reform one of our number, known to us as student, writer, teacher, dean of the Woman's college, and editor, has by noble purpose and successful effort, become a leader in a great reform as president of the Woman's Christian Temperance Union, guiding and giving inspiration to a movement calculated to elevate and bless mankind; and

WHEREAS, This semi-centennial anniversary affords opportunity for our citizens to join in a public tribute of regard; therefore be it

Resolved, That this assemblage, representing Evanston in its varied interests, recognize with gratitude the usefulness, devotion and tireless energy of Frances E. Willard in every good work, and hereby tender their hearty congratulations on this anniversary, and pray that there may be in store for her many years of usefulness and honor.

## THE RULES OF THE HOUSE.

One of the important things connected with the next session of congress will be the revision of the rules. Congressman Reed, of Maine, has written an article on that subject for the North American Review for October, in which he says that "the next house will contain no large and successful majority tempted by its largeness and success to ride over the minority. Thus far, the majority seems to be but three, and a majority of three will hardly cover the percentage of loss from sickness and disability. Even if the territories should add an unbroken band of five, there will then be but three above a quorum, which is hardly enough for business, let alone tyranny. Undoubtedly, some effort will be made next December to change the rules so that business can be done and the scandals of the last Congress avoided. I ought not to have written the words to change the rules for that conveys an entirely incorrect idea. No rules have to be changed, for the new house will have no rules. What should have been written is that there will be an effort to establish rules which will facilitate the public business—rules unlike those of the present house, which only delay and frustrate action. Whether the new rules will simply go back to the days before Mr. Randall was speaker, or will have changes more or less important than this would be, nobody but the house can say; but the people of the country ought with one voice to help and support any honest effort to do business and to shorten congressional sessions. . . . The house will meet without rules, and must make them. They must be made by the majority of the house, for no one else can by any possibility make them. To suppose that the opposition will refuse to do their legislative duty unless they can dictate the rules is the wildest dream of parliamentary insurrection that ever presented itself to human vision. But whether they venture on this action or not, the whole subject needs the sunlight of public opinion. If the American people do not get a congress such as they wish, and legislation such as they need, it is entirely their own fault. I do not mean that they might have elected better men and are therefore to blame. They are not fault if they do not see that the work is done after the men are elected.

## WISCONSIN AND CLEVELAND.

There is something quite ridiculous in the charge that during Mr. Cleveland's administration he played in the hands of

the mugwumps, and that to most Wisconsin democrats, "the whole period of his administration seems like a dream." The Chicago Herald prints an interview with a person whom it calls "a democrat of great prominence in Wisconsin," on the subject of Cleveland ignoring the democrats in this state. The complaint thus "Wisconsin democrat of prominence" makes against the late democratic president is cut of harmony with fact. In his own language he says:

"There were honored leaders in retirement. There were great captains whose fate it had been to hold aloft the banner of the people in times when passion had thrown odium upon a just cause. There were hosts of young men ardently fond of the principles of their party, whose hearts yearned for some tangible evidence that the administration which they had helped to create was something different from those which had preceded it, and which they had been taught to despise. It is not necessary for me to describe the disappointment which Cleveland's stolidity caused these powerful elements in the party. He had no soul. He was without sentiment. He was ignorant of democracy's aspirations. He evidently had no appreciation of the fervor with which the people clung to its old-time leaders. He certainly could have no appreciation of the devotion to principle which actuated that magnificent organization during the twenty-five years of its existence. He was a man who, if he should have been bold, he was harsh when he should have been kind. He quailed before the eye of a mugwump; he was first of all to cast obliquity upon a democrat. He feared the republicans; he was guided by their criticism. He never once yielded to democratic entreaty or clamor. That is where he failed. His administration was not a democratic administration in political sense. I do not think he can ever again be made the leader of his party. If he is ashamed of it, then it must be ashamed of him."

The "democrat of prominence" finds fault because Mr. Vilas was put in the cabinet for the alleged reason that he was unpopular and a corporation lawyer, "who had but few warm friends, and whose democracy was never very pronounced." It may be true that Mr. Vilas has not been popular, that he still is a corporation lawyer, that he has very few warm friends, but his acts during his connection with the democratic administration should certainly convince any intelligent man that the democracy which Mr. Vilas carried with him was sincere, pure, and as unshaken as Cleveland's or Lamar's. His famous circular of 1885, leaves no doubt on the minds of thinking and intelligent men as to the true-blue democracy of the then postmaster general.

But then, why did not this "Wisconsin democrat of prominence" give some illustration to substantiate his charge that "where well-known democrats were candidates for a position, Mr. Cleveland would throw them overboard and appoint a mugwump." Can he name a single prominent democratic candidate for appointment, who was defeated by a mugwump? Doesn't this "Wisconsin democrat of prominence" know that the Cleveland-Vilas administration made a very clean sweep in this state? In all the state but one republican was re-appointed to office, and he was the postmaster at Prairie du Chien—a brave soldier who lost a leg at Bentonville, North Carolina, during the war. He was in General Bragg's command, and the little general knew him and the choice was between Bragg's enemy and a brave one-legged soldier, and the general very wisely stood up for the soldier. All this talk about Cleveland ignoring Wisconsin democrats is simply loath. He gave the hungry democrats all he had to give, and no president could do more.

According to a computation just issued by an eminent statistician the cost in human life of the wars of the last thirty-four years has been 2,253,000 souls. The Crimean war cost 750,000 men; the Italian war (1859), 45,000; the Danish war (1864), 3,000; the American civil war—the northern states, 280,000; the southern states, 520,000; the Austro-Prussian war, 45,000; the Franco-German war—France, 165,000; Germany, 60,000; the Russo-Prussian war, 250,000; the South African war, 30,000; the Afghan war, 25,000; the Mexican and Cochino-Chinese expeditions, 65,000; and the Balgaro-Serbian insurrection, 25,000. This list does not include mortality from sickness.

The people of Japan are learning to enjoy other kinds of food besides fish and rice. According to statistics issued a short time ago, the number of cattle slaughtered in Japan in 1879, was 10,000. In 1885 this number had increased to 116,000, in 1886 to 130,500, and in 1888 to 200,000. Japan has over 1000 miles of railways, and several great colleges, and is learning to do many things besides jaggery.

That square-toed independent democratic paper, the Boston Herald, says that Secretary Noble is fast making a national reputation as an obstinate honest man. A good confession, and the secretary takes after his chief.

The mugwump papers of the east are really delighted with the republican nominations in New York. Verily, the season of strange things has not past.

The best place for the New York people to agree on the location of the world's fair, is in Cook county.

## Gentle Quacks.

"Yes, it pays," said a big, fat physician, with a name which is known throughout the medical world. "I have a practice worth \$40,000 a year." "Women?" "Yes, you've guessed it first time. They pay \$10 every time they come into my office. When one gets on my list I tell you she stays!" and Dr. H. — laughed long and loud. This is quackery—gilt-edged, gentle quackery—to keep suffering women paying tribute year in and year out, and doing them no good. Dr. Pierce's Favorite Prescription cures the peculiar weaknesses and diseases of women. It does not lie to them nor rob them.

Men's suits, boys' suits, children's suits, pants, hats, furnishing goods in great variety at Milwaukee Clothing Co's.

## THE MOUNT, FIRE-SWEPT

THE LOSS THREE HUNDRED THOUSAND DOLLARS.

Three Firemen Fatally Injured—A Mine—Sooty Village Devastated—Responsibility for the Rock Island Wreck.

Butte, Mont., Sept. 30.—This city was visited Sunday by a disastrous fire which destroyed the finest building block in the business district, entailing a loss of over \$300,000, with insurance amounting to only about half that sum. Three firemen were fatally injured while fighting the flames and a number of others were hurt more or less.

The fire started at noon in an unfinished structure and a violent wind fanned the flames into fury, while an insufficient supply of water prevented the department from successfully combating their spread. Soon the whole block was on fire, and then the firemen, seeing that all attempts to save any of the property in the district would prove unavailing, devoted their attention to saving adjacent buildings from destruction, which they were able to do only after the most determined work, during which three men suffered injuries which will probably cause death, while a number more were slightly disabled.

From the many accounts of the origin of the fire the one which gains most credence is that it was started by the upstart of a stove. Telegrams were sent to miners of Helena and Anaconda for assistance, but before the fire was brought under control twenty buildings had been destroyed.

## DEATH IN A TANK.

Three Milwaukee Workmen Overcome by Deadly Fumes from Paint.

MILWAUKEE, Wis., Sept. 29.—A remarkable accident, which resulted in the death of one man and the prostration of three others occurred here Sunday. The scene was at the Rock Island tank, where the accident occurred great excitement in the vicinity. W. H. Krueger, Emil Louder, and Charles Schuehl were lowered into a huge iron tank which was being repaired. The water had been drained off and the iron scraped, and it was decided to paint it. A very strong black paint, possessing lasting qualities and imported from Germany, was used. The three men had not been at work over ten minutes when Krueger complained of feeling faint. The other two men were taken sick a few moments later. Suddenly Krueger pitched forward on his face and the other two men cried for help. A rope was lowered to them and they attempted to fasten it around Krueger's body. While doing so they were overpowered by the fumes from the deadly paint. The men above became panic-stricken when they saw what had happened and ran away. At this juncture Frederick Vogel, Jr., a member of the firm, arrived, having been attracted by the uproar. Fastening a rope about his body he called the workmen back and then lowered him into the deadly tank. He was overcome as soon as he reached the bottom and was hauled up more dead than alive. As soon as he recovered consciousness he insisted that he be let down again, this time taking the precaution to tie a wet sponge over his mouth and nostrils. He was successful in withstanding the noxious gases given out by the paint, and one by the unconscious men were hauled out. Medical aid was on hand, but despite the efforts of the physicians Krueger died without again becoming conscious. The other two men, Louder and Schuehl, recovered under skillful care and were removed to their homes and will probably recover. To tell the reason why the paint became so deadly puzzles the men who are investigating it. It is thought that the iron rust and the paint generated some peculiar and hitherto unknown poisonous gas.

## ENGINEER TWOMBLY WAS DRUNK.

Confession of Fireman LaCloche Regarding the Rock Island Wreck.

CHICAGO, Sept. 30.—Engineer Twombly was under the influence of liquor Tuesday evening when he ran his engine into the Washington Heights passenger car. The corner's jury held him to the grand jury to answer to the killing of six persons. Fireman LaCloche was also turned over to the grand jury. The Rock Island company, Conductor Buford of the freight train, and the crew of the passenger were severely censured.

After the verdict had been brought in LaCloche admitted that he had sworn falsely before the jury, though he pretended that his perjury was the result of excitement and confusion rather than a deliberate misstatement. LaCloche admitted further that he had seen Twombly under the influence of liquor two or three times in the last month. LaCloche took Lieut. Healy aside and confessed that he had not told the truth on the witness stand. To the lieutenant then and to other persons afterward LaCloche said that the engineer and himself had taken two or three drinks before going out with their train Tuesday evening. He intimated that Twombly was asleep while the heavy train was thundering forward a few hundred feet from the passenger coach. Twombly was leaning out of the cab, he said, and he could not say whether the engineer was asleep or not, but he knew that his companion was under the influence of liquor. LaCloche swore before the jury that he did not see the red danger signal until within three or four car-lengths of it. After the verdict he admitted that he saw it half a mile away. By his post-verdict confession it appears that both Twombly and LaCloche jumped as soon as they saw their danger. From other portions of his admission it seems that Twombly and LaCloche, sobered by the accident, walked several blocks together that night and concocted the story the fireman told the jury. Intimations were given out also that high officials of the road had connived at the suppression of the facts.

## A BAPTISM OF FIRE.

Caledonia, Minn., Business Men Burned

CALEDONIA, Minn., Sept. 30.—An incendiary fire that started at 2 o'clock Sunday morning, in the hardware store of Knute K. Dahle, destroyed the business center of the city. The loss amounts to \$30,000. The store was insured by the following: Sprague Brothers, general store, loss \$6,000, insurance \$5,000; Knute K. Dahle, hardware and farm implements, loss \$1,000, fully insured; Poleman J. Stanley, proprietor of The Caledonia County Argus, loss \$2,500, no insurance; Thomas Abbott, fruit, loss \$1,000, insurance \$500; St. John's Lutheran church, loss \$1,000, fully insured; Bank of Caledonia, loss \$16,400; insurance \$3,500.

## PLAYED WITH POWDER AND WERE KILLED.

HELENA, M. T., Sept. 30.—Albert Nelson and Harry Walton, aged 10 and 12,

found at Elkhorn yesterday some giant powder, carelessly left in their way by miners, and began to experiment with it. The result was an explosion which killed both. A coroner's jury is investigating the matter, and as the miners at the camp are greatly enraged over the affair, it is feared that night and concocted the story the fireman told the jury. Intimations were given out also that high officials of the road had connived at the suppression of the facts.

## QUEBEC AUTHORITIES BLAMED.

Verdict of the Coroner's Jury on the Recent Terrible Landslide.

QUEBEC, Sept. 30.—The inquest on the

death of the victims of this recent landslide has closed. The verdict of the coroner's jury was that the deaths were the result of gross and culpable negligence on the part of the federal officers of the dominion in not taking necessary precautions by not building the buttresses recommended to the same authorities by the city engineer of Quebec in 1880; that the death of Joseph Kemp was due to gross negligence of the municipal authorities of Quebec in not procuring and furnishing requisite implements to extricate him. The jury further says that more lives would have been saved had such implements been procured, adding that too much time was lost in extricating the dead. Ernestus Wiman's offer to subscribe to the relief fund was temporarily declined, as \$1,900 is still at the relief committee's disposition.

## FLOODS IN MEXICO.

CITY OF MEXICO, Sept. 30.—The city of Lagos is partly inundated. In eight of its wards and in several villages in the vicinity the streets and open spaces are entirely covered by water. The floods, which are steadily increasing, have done great damage to crops, but no lives have been lost.

## WRECK ON THE BALTIMORE &amp; OHIO.

WILMINGTON, Del., Sept. 30.—A freight train on the Baltimore & Ohio railroad, near this city, and a shifting engine collided Saturday morning. The engines were derailed, and Fireman Lyle was instantly killed.

## A RAILROAD TO HUDSON BAY.

Application Made to the Canadian Parliament for a Charter.

SAULT STE. MARIE, Mich., Sept. 30.—Canadian and American capitalists have applied to the Canadian parliament for a charter for a railroad from the Canadian Soo to Hudson Bay. Recent discoveries of coal have been made on the Moose river, about 250 miles north of the Soo, by the stipendiary magistrate of that district, and some of it has been brought down for examination, creating no little interest in that unfamiliar land and exciting considerable comment. The road will be 370 miles in length and will cross the main line of the Canadian Pacific at Windermere, 107 miles due north of the Soo. The country is said to be rich in pine and minerals. The idea of the men interested is to open up this country and to build to Hudson Bay with a view to making a European route through the Hudson straits. The distance is one-third less than the much talked of route from Winnipeg. The Dominion government will be asked for aid and a surveying party will start out from here Jan. 1 under the direction of Joseph Fozens, a well-known Canadian engineer. The line will give the Canadian Pacific a cut-off to the water.

Many young children become positively repulsive with sore eyes, sore ears, and scald head. Such afflictions may be speedily removed by the use of Ayer's Sarsaparilla. Young and old alike experience the wonderful benefits of this medicine.

Visitors to our city are cordially invited to take a look through the book and fine art store of J. Sutherland & Sons.

THE WASHINGTON BUDGET.

THE DAY'S NEWS FROM THE NATIONAL CAPITAL.

WASHINGTON, Sept. 30.—Army people are awaiting with considerable anxiety the President's ultimatum in the matter of the three staff appointments which will undoubtedly be made during the present week.

The announcement some days ago that Secretary Proctor was seriously considering the names of civilian candidates has somewhat alarmed the army aspirants, some of whom are working like beavers to steer him away from such a course.

There is no certainty as to what the result will be. If Secretary Proctor's recommendations are carried out it is probable that two lieutenants of the army and one civilian, a Grand Army man, will be selected.

If the President adheres to what he is represented to have said to a prominent official who called in the behalf of a civilian applicant, only lieutenants of the army who had experience as members of the regimental staff and who were with war records will be represented.

Secretary Proctor has carefully examined the papers of about fifty army candidates, and a decision, or so it is believed, will be made by the end of the week.

These do not represent by one-fifth the total number of candidates, but only those with records and recommendations entitling them to consideration.

PORTER'S SON MISSING.

He Was in Legitimate Army and Has Not Been Heard From Since the Defeat.

WASHINGTON, Sept. 30.—Relatives and friends of Essex Porter of this city, son of Admiral Porter, are much distressed over his continued absence. About six months ago Lieut. Porter entered the service of Legitimate in the Haytian war.

Legitimate's government promised to give him \$8,000 a year and to insure his life for \$35,000 for the benefit of his wife. No tidings have been received from him since early in the summer, and as Legitimate's army has been disbanded his friends here are naturally very anxious about his safety.

Task on Sorghum Sugar Making.

WASHINGTON, Sept. 30.—Secretary of Agriculture is inspecting the mills for the manufacture of sugar from sorghum cane by the new distillation process.

## BASEBALL.

Standing of the Clubs in the Various Associations.

The following tables show the standing of the principal clubs to date:

	Won.	Lost.	Per Cent.
New York	29	42	.408
Boston	29	43	.408
Philadelphia	61	61	.500
Chicago	64	49	.567
Cleveland	61	67	.477
Pittsburgh	59	68	.465
Washington	57	72	.442
St. Louis	40	55	.420

American Association.

	Won.	Lost.	Per Cent.
Brooklyn	82	43	.654
St. Louis	74	42	.638
Athletic	64	51	.559
Baltimore	63	54	.539
Cincinnati	62	59	.512
Columbus	61	69	.469
Kansas City	62	71	.465
Louisville	54	63	.462

Western Association.

	Won.	Lost.	Per Cent.
Omaha	57	47	.549
St. Paul	55	47	.539
Minneapolis	51	57	.469
St. Louis	58	61	.487
Sioux City	59	51	.539
Des Moines	52	62	.453
Denver	51	65	.443
St. Joseph	42	64	.396
Des Moines	41	75	.350

Inter-State League.

The race for the championship of the Inter-State Baseball League is at an end, Springfield winning the pennant.

The contest has been a very close and exciting one, Springfield and Quincy being nearly a tie to the last week, and Quincy losing by only one game.

The league has put up good games the greater part of the season and has succeeded in making it a fairly good investment.

The standing of the different clubs is as follows:

	Won.	Lost.	Per Cent.
Davenport	50	46	.521
Springfield	62	51	.553
Quincy	59	51	.539
St. Louis	52	49	.514
Burlington	52	61	.461
Evansville	52	63	.449

The American Association.

At Brooklyn there was another big crowd at Ridgewood park to witness the game between the Brooklyn and Baltimore teams.

The Brooklyn team won the game through brilliant fielding and timely batting. Score:

Brooklyn	2	0	1	0	3	0	—
Baltimore	1	0	0	0	0	0	—

AT PHILADELPHIA.

Columbus	0	1	0	0	0	0	—
Athletics	2	0	0	0	0	0	—

Saturday's Professional Games.

National League—Chicago, 2; New York, 2; Indianapolis, 10; Boston, 3; Pittsburgh, 4; Philadelphia, 1; Cleveland, 7; Washington, 1.

American Association—St. Louis, 2; Louisville, 2; Athletics, 3; Columbus, 0; Brooklyn, 8; Baltimore, 7; Kansas City, 9; Cincinnati, 7.

Western Association—Sioux City, 8; Des Moines, 1; Minneapolis, 1; St. Joseph, 3; Milwaukee, 19; Omaha, 7; St. Paul, 9; Denver, 5.

Inter-State League—St. Paul, 9; Denver, 5.

FRANCE DISTRIBUTES PRIZES.

The Exhibition Awards Given Out by Carnot and Tirard.

PARIS, Sept. 30.—Exhibition awards were distributed at the Palais de l'Industrie today.

President Carnot and Tirard, minister of commerce, presided at the ceremony.

France would not forget these marks of esteem and sympathy. He dwelt upon the value of such a lesson at a time when the study of social questions and the examination of means for defending commercial interests were more than ever necessary, and he hoped it would open up an era of peace and that the guests would carry away rich impressions which would be without effect upon the relations between nations. The exhibition would then have served the great cause of peace and humanity.

Premier Tirard announced the award of 903 grand prizes, 5,103 gold, 9,690 silver, and 9,629 bronze medals, and 8,070 honorable mentions.

Ex-Queen Natalie at Belgrade.

BELGRADE, Sept. 30.—Ex-Queen Natalie arrived here Sunday. Her presence was totally ignored by the government officials, but she was received most enthusiastically by the crowds that thronged the streets through which she passed.

On private residences and places of business throughout the city flags were displayed in honor of the ex-queen. The official reception, however, that no official reception will be given Natalie, asserts that ex-Queen Natalie has the sole right to regulate the relations between Natalie and her son.

Foreign Notes.

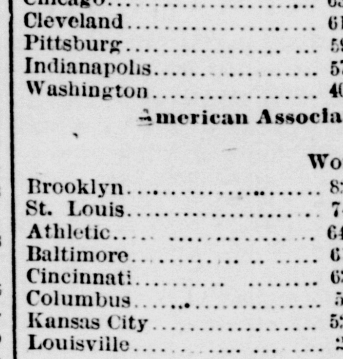

CONRAD GODECKE, United States consular agent at Koenigsberg, eastern Prussia, has been sentenced to four months imprisonment and to pay an \$800 fine for usury and fraud.

The crew of the Spanish vessel captured off the Moroccan coast has been released.

## BILLINGS CONVICTED.

FOUND GUILTY OF MURDER IN THE SECOND DEGREE.

Lynched an Innocent Man—A Murderous Lover—The Louisiana Fraud—The Criminal Record.

WATERLOO, Iowa, Sept. 30.—The jury in the Billings case agreed on a verdict of guilty at 6 o'clock Sunday morning.

Judge Ney, who had retired late in the night, was sent for, and the defendant was brought into court at 6 o'clock.

He was quite nervous. When the clerk received the verdict, which was guilty of murder in the second degree, he sat bolt upright with his arms folded, and a still expression upon his countenance.

After they were discharged, the jury were discharged. The Billings case was brought up for trial at 10 o'clock, and when the case was called on, the jury was called on.

The case will probably be appealed, but there is little chance for a new trial.

Under the law the punishment must be at least ten years' imprisonment in the penitentiary and may be for life. Thirteen ballots were taken in the jury room, the first being eight for conviction and four for acquittal. On the eighth ballot it stood two to two, and remained that way until the thirteenth ballot.

This is the second trial, the first resulting in murder in the first degree and the sentence being reversed by the Supreme court in error.

Lynched an Innocent Man.

UNION, W. Va., Sept. 30.—Reliable information from Bluefield, Mercer county, shows that the recent lynching of negro Samuel Garner was an outrage on a par with the hanging of John Turner in Greenbrier county last July. Like Turner, Garner was lynched for a crime he never committed. He was charged with a criminal assault on a 7-year-old girl. The girl was several years older and had made an appointment with Garner. The Mercer county authorities have made a number of arrests of persons having a hand in the lynching and the suspects are in jail at Princeton. There is a determination to go to the bottom of the matter and there has been quite an exodus from Bluefield in consequence.

Louisiana's Big Defalcation.

NEW ORLEANS, La., Sept. 30.—The statement is now made upon what appears to be good authority that irregularities have been discovered in what is known as "baby" bonds, commencing at No. 102,000, with some slight irregularity previous to that number. Nearly all of the bonds numbered 100,000 to 102,000 are fraudulent. The State auditor and treasurer will soon take up this branch of the investigation. Attorney-General Rogers admits that "baby" bonds have been abstracted or otherwise tampered with to the amount of \$400,000. According to Judge Rogers' figures the defalcation already in sight will reach more than \$1,300,000.

Progress of the Cronin Case.

CHICAGO, Sept. 30.—The work of getting a jury in the Cronin case drags along at four weeks have now been spent at it. Of the 69 men who have been examined 487 have been excused for cause; excused without examination, 62; peremptory challenges by the State, 57; by the defense, 76. Four jurors have been accepted and sworn and two have been accepted by both sides but not sworn. Coughlin and Burke have exhausted their challenges. O'Sullivan has one remaining, Kunze four, and Beggs nineteen.

Bloody Feud in West Virginia.

HUNTINGTON, W. Va., Sept. 30.—The feud between the Brumfields and the Halls on Hart creek, Lincoln county, seems to be still in progress. Last Sunday Al Brumfield and his wife were both shot and the woman was dangerously wounded. Wednesday Harris Brumfield was ambushed near the same place and shot in the right breast. Eight or ten shots were fired at him.

An Embellisher Surrenders.

COLUMBUS, Ohio, Sept. 30.—Robert P. Holliday the defaulting cashier of the first national bank of Mount Gilboa, who has been in hiding for the last four weeks, surrendered himself to the United States authorities here Sunday and the bond for his appearance was fixed at \$25,000, which he could not give. He is charged with embezzling \$35,000.

Caught Through His Capidity.

MENDEL, Texas, Sept. 30.—Thomas O'Connor, Jr., was Saturday convicted of a murder committed eighteen years ago and sentenced to the penitentiary for forty-nine years. He is a son of Thomas O'Connor, who died worth \$2,000,000 two years ago, and his efforts to get his part of the estate as heir-at-law led to his arrest in New Orleans.

MAY ATTACK THE RUSH.

Canadian Sailors Threaten to Avenge Their Wrongs on the American Vessels.

OTTAWA, Ont., Sept. 30.—Word from British Columbia to-day says that the United States cutter Rush, which has gained such notoriety this season in connection with the seizure of Canadian sealers in Behring sea, will shortly leave Sitka for the south, calling on her way down at Victoria. It is feared that owing to the indignation which exists against the officers and the crew of the cutter among the crews of the seal vessels and their friends over the confiscation of their summer's work serious trouble may arise, as the men are determined they will try to avenge their wrongs in this way if the British government is going to deny them protection. It is said that it will give the local authorities all they can do to prevent a conflict. The military force stationed at Victoria is to be held in readiness to quell any disturbance.

Mexicans Prefer New York.

CITY OF MEXICO, Sept. 30.—Prominent business men and officials here say they would prefer to see the world's exposition of 1893 held in New York rather than in any western city.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have never tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottles free at F. Sherer & Co's drugstore.

Harvest Excursion.

Will be run by the Chicago & Northwestern Railway to points in Iowa, Minnesota, Dakota (including the Black Hills), Nebraska, Wyoming, Colorado, Utah, Idaho and Montana, for which tickets will be sold August 6th and 20th September 10th and 24th and October 8th at half the usual rates, one fare for the round trip. These excursions will encourage the desire of looting on free government land or of purchasing cheap stock land to look for a good ground over carefully and judge for themselves of the rapid development of the country and the wonderful fertility of the soil. For full information regarding rates, tickets, etc., apply to any agent of the Chicago & Northwestern Railway.

Reviewers' Arrive in 10.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever, etc., tetter, clapped hands, chilblains, and all skin eruptions, and positively cures piles, or hemorrhoids, and is equally good for the cure of rheumatism, neuralgia, or money refunded. Price 25 cents per box. For sale by F. Sherer & Co.

## Neckwear.

We are showing an exceptionally fine line of the newest and correct shapes in gentleman's Neckwear. Largest stock ever in the city

THE

OLD RELIABLE INSURANCE AGENCY.

At this agency is represented many of the Sound, Solid Old Companies of this country and England, among them are

The Sun of London, England.

The oldest stock insurance company in the world, and one of the largest.

The Old Hartford, of Hartford, Ct.,

Organized in 1794. I have in my office a fac simile of the first policy ever issued by this sterling old company, dated Hartford, Feb. 8th, 1794, which is well worth examination. With its millions of assets, great experience, and the fair and honorable manner which this company has at all times adjusted its losses, accounts for its great popularity and enormous business. All my companies have had great experience, and have immense assets, and sound and solid. The most of them have been through all the great fires for years past, including those of Chicago and Boston, and have always paid one hundred cents on the dollar and always will.

THE BEST IS THE CHEAPEST.

I also have a special form policy for dwellings and contents, the shortest and best ever issued. All policies written at lowest possible rates. Please call at my office opposite Cook County National Bank

MARK RIPLEY, Agent.

PAINLESS EFFECTUAL

BEECHAM'S PILLS

## BRIEFLETS.

—Work is progressing on the Myers block.

—The Whitewater water works will be officially tested to-morrow afternoon.

—Mr. James Spoon, who was so severely injured about the head last week, is out again.

—A number of young gentlemen and ladies went to Madison last evening on the vestibule.

—Rock County National Bank placed a very handsome sign above their front to-day, made by Rogers & Hutchinson.

—Mr. James Van Etta is making many improvements in and around his property on South Main street, fronting the park.

—Crystal Temple of Honor No. 32 assembled in regular weekly session this evening—lodge room in the Judd block North Main street.

—Little Joe Murray was leading his pet around the streets to-day, followed by quite a flock of canines, all would be quite dogs.

—Mr. E. L. Carey, who took such a tremendous fall last week is able to be out upon the street again. Mr. Carey will be laid up a month or more.

—The new South Main street home of Mr. and Mrs. John H. Jones was made joyous Sunday morning by the safe arrival of a bright-eyed little baby girl.

—Dr. Cooper, who was so seriously burned at the Buckleton stock farm, has so far recovered as to be out again. He carries both arms in slings and will be laid up for some time to come.

—Attention is called to the advertisement in another column of Mr. A. O. Behel, of Rockford. Mr. Behel is a solicitor of long experience. Correspond with him if interested in patents.

—The fellow who will lock the back door and compel several gentlemen to jump out the back window—nearly into the river—is rather stretching a practical joke. So the gentlemen thought who did the jumping.

—A large number of young people attended the regular 20 cent dance at Hibbard's hall on Saturday evening. Smith & Anderson's orchestra furnished the music. Dancing was discontinued at 11:45 o'clock, sharp.

—Janesville City Hospital wishes to express their thanks for the kindly remembrance of the Baptist church, in the offering of the emblems of yesterday's Harvest Home festival, in the shape of fruit and flowers.

—The circuit court adjourned this morning until two weeks from to-day at 9 o'clock sharp, Judge Bennett returning to Jefferson, where he will be occupied the remainder of the week, going from there to Monroe next Monday.

—We would call attention to the beautiful new song entitled "The Old Oak Tree," written by O. A. Phelps, author of "Come Back Dear Heart," for sale at McGregor's Music store, South Main street. All lovers of music should see this latest.

—Speaking about expenses in running a store, call at the little grocery store around the corner and compare. We sell for cash and let quality and price do the talking. G. W. Skelly & Co., No. 1 South Jackson street.

—Messrs. S. B. Heddies and H. T. Keller will finish to-day sampling 600 cases of tobacco for George Ramerell at Evansville. Mr. Heddies reports the goods clean and very fine packing. These 600 cases are not all of Mr. Ramerell's '88 crop. The rest will soon be handled.

—This morning another new firm took its place in the business arena of this city. Mr. D. E. Jones, of Emerald Grove, has entered into partnership with Mr. A. M. Manger, the grocer at 26 South Main street. The firm will be known as Manger & Jones. The Gazette wishes the new firm success.

—Yesterday morning the west side hose company went down to Monterey and secured the blankets, coats and cushion lost in the raceway at the time the carriage was plunged into the water on Tuesday evening. The water was drawn off the race during Saturday night, and the missing articles were found near the point where the accident occurred.

—The N. O. W. club is again organized and will begin another series of their social parties. The officers are as follows: Charles Barnard, President; Louis Paul, Secretary; Will Hemming, Financial Secretary; Irving H. Tarrant, Treasurer. Floor Managers, Will Kesh, Will Hemming, Irving H. Tarrant. The first party given by this club will be held at the Armory, Tuesday evening, Oct. 8.

—Mrs. May Kuben, of South High street, died last evening at 10:30 o'clock. Mrs. Kuben was born May 20th, 1826, and was 63 years old. She had been invalid for many years, and a great sufferer from rheumatism. She was the mother of Mr. George Shaffner, from whose home the funeral will be held at 10 a. m. to-morrow.

—The ladies of the Rectory society have had their annual meeting, elected their officers, and planned their winter work. They decided to give their supper once a month instead of weekly as heretofore, and will be glad to see their friends out Tuesday evening, October 1st, in Kenilworth block. Tea at six o'clock, for the sum of 25 cents.

—Married—At the home of Mr. and Mrs. S. John, on North Bluff street, Sunday evening, the Rev. Dr. Hodge officiating. Mr. Joel R. Green, of Grand Crossing, Ill., and Miss Nellie J. Dorr, of this city. It was a quiet little wedding, but the many friends who have known Miss Dorr in the city of her birth will wish for Mr. and Mrs. Green all prosperity and happiness in the future.

—Beloit Citizen: "A beautiful sight in the eastern sky about daylight, is Venus. She is now wearing her best bib-and-tucker, which is very becoming and gorgeous. The light of Liberty, who has the contract for lighting the world, looks like a stove grille in the mud in comparison to the light of this beautiful maid. Get up and take a look at half-past four in the morning."

—Mr. T. A. Wilkinson, of Fort Worth, Texas, in charge of the Texas exposition as a passenger depot, was the present caller at the Gazette office to-day. Mr. Wilkinson will talk to our people concerning the resources of Texas this evening at the Business Men's rooms, and his car will remain in the city until to-morrow evening. All are invited to call at the car and inspect the exhibits. A cordial invitation is extended to all to meet Mr. Wilkinson this evening at the Business Men's Rooms.

—The deer that escaped from the park at Mr. Woodruff's farm a few days since, was found by a neighbor in the woods near by, yesterday. Mr. Woodruff was notified and started out to find it, but just before reaching the pet a shot was heard and when the deer was found she was leaning against a tree with a bullet lodged in her head. She was taken home and every effort is being made to save her. Why any one should want to shoot a tame deer is a question that is difficult to answer, and especially after being requested through the papers not to do so.

—At the Baptist church an audience which completely filled the house gave earnest attention to a Harvest Home service which took the place of the usual Sunday morning worship. Around the pulpit were placed many of the fine growths of the fruitful year. The exercises consisted of songs, responsive readings, prayer, recitations, a brief address by B. F. Donnell, Esq., upon the origin, order and meaning of the Jewish festival, a short sermon by the pastor from the text Isa. 3-3. "They joy before thee according to the joy in harvest," and a generous offering for the work of state missions. The singing, partly by the regular church choir and partly by the Sunday school choir, seated in the opposite gallery, was a specially inspiring feature of the service. It was, in all, an occasion to be remembered with peculiar pleasure.

—A very interesting case came before the municipal court to-day. Suit is brought under sections 1331 and 1332 revised statutes of Wisconsin, in the name of the State against Mrs. Hannah Edden, of Milton, the supervisor of Milton being the complaining witness. The above statute makes it a penalty of thirty dollars for maintaining an obstruction in the highway.

## NO BURGLAR NEED APPLY

Important Contribution to the Development of Janesville.

## A BURGLAR PROOF VAULT

Improvement in the Rock County National Bank—The New Safe Deposit Vault.

The improvements which have been made in our city during the past few years are looked upon with gratification by all its residents. These improvements include not only enterprises of a public nature, which conduce to the general happiness and welfare of the people, the protection of property, and the increase of taste and education; but also those more private in their character, which have not been less practical and ornamental.

A half score years or so has seen a marvelous transformation in the factories, hotels and business houses of the city; while a visit to the residence parts, disclose a change not less marked and wonderful. This development always noted as being conservative and our banking institutions partake of this characteristic. But the old-time inhabitants of Janesville will readily distinguish between the banking offices of the past and present. Many years ago the First National erected the very handsome building in which its business is still done, and which is both substantial and attractive. Not long since, the Savings Bank moved from its contracted quarters in Lappin's block to its present elegant and comfortable office; and now the Rock County National has completed the work of enlarging and improving, which has been going on during the summer. The radical change which has been made in this office, the large expense which has been incurred and the interest which the public feels in such evidence of the city's development make more than a passing reference to this enterprise proper.

(When the Rock County Bank was established in 1855 it occupied a small frame building on the corner of Main and Milwaukee streets. Upon the erection of the Jackson & Smith block in 1861, it tenanted the office which was arranged for its use, and in which its business has been transacted since that date. Its expansion has more than kept pace with the growth of the city and the necessity for more convenient and commodious quarters has been felt for many years. The want has been supplied by adding to the original office the adjoining store which had long been used for mercantile purposes, and the room thus made gives perhaps the most spacious banking house in the state outside of Milwaukee. The furnishings are in accord with modern ideas; they are plain but rich and in good taste. The counters and desks are of antique oak; the walls are frescoed in an artistic manner; the floor is of tile and all the windows are of plate glass. It is supplied with those modern indispensables—water, gas, steam and telephone; and all the conveniences needed by both employers and customers are generously provided.

While, however, these things please the eye and contribute to ease and comfort, they are only the outward and visible token of the chief improvement which has been made by the Bank. Thirty years ago, before burglary had risen to a science and been adopted as a profession, very ordinary protection was required for the safety of money and other valuables. A stone vault with a good safe, gave ample security to whatever was placed behind their doors. But with the acquisition of wealth and the invention of mechanical contrivances to preserve it, the skill and ingenuity of the professional crookman have been developed until the resources of science are liberally drawn upon for an adequate defense against his tools and explosives. At the present day, to be proof against the attacks of burglars, a vault must be made of plate so hard that they cannot be drilled, so tough that they cannot be broken, so tightly fitted that they cannot be wedged, and so strongly bolted that they cannot be ripped apart. The doors must work and close with the utmost precision, and to offer efficient security they must be constructed and operated in such a manner that not a hole will be made through them.

The effort worthlessness of combination locks appears in the recent bank robbery at Harley, where fifty thousand dollars were taken after only a few minutes labor at those alleged devices for protection. All the useful inventions which experience has suggested and skill supplied for achieving absolute safety have been adopted in the construction of the new vaults of the Rock County National Bank. Their cost has been something over six thousand dollars and the manufacturers give their assurance that no other bank in the country outside the large cities, has so complete a defense against the schemes of the accomplished burglar. The vaults were designed by Mr. W. B. Avery of Chicago, the leading expert in his line in the west, and the gentleman who has charge of the extensive safe deposit vaults of the First National Bank of that city. They were constructed under the personal supervision of Mr. Avery by the Chicago Safe and Lock Co., whose reputation for this class of work is unexcelled. These vaults comprise the very latest improvements for protection against burglary, and are absolutely fire proof, the steel vaults being surrounded by heavy stone and brick walls. The inside of the vault is the real burglar proof, and is composed of two inches of chrome steel (the hardest metal known to safe builders), put together in plates and fastened together by chrome steel bolts. The weight of metal in both vaults built about 50,000 pounds. The vault is built from the outside in and the outer plates being rabbetted together to prevent being torn or pulled through from without. In the whole construction there is not a single bolt, screw or fastening of any kind coming through to the outside, and therefore impossible for the burglar to find any of the fastenings; but should he by any means strike one, it would be as impossible for him to drill the bolt as the lining itself and on account of the plates being put on from the inside the bolts can not be drawn or punched out. The vestibules are

built in the same manner as the body of the vault. Each vault is protected by double inside or vestibule doors two and one-half inches thick, constructed the same as the vault, each set of doors being guarded by double combination locks of approved pattern. These doors alone would furnish ordinary protection against burglars. The outside doors are heavier and thicker than the inside or vestibule doors, and are constructed of the same material and in the same manner as the other work. The locking bolts on these doors are twenty-two in number and are 1 1/2 inches in diameter on each door. These bolts are connected with a Burton & Harris automatic bolt device that throws the bolts, the automatic being connected with Yale Time Locks, so that after the door is closed and the automatic has thrown the bolts for the night, they cannot be opened until the time lock, being set to a certain hour, trips the trigger that operates the automatic, when the bolts are pulled back and the door is ready to open. It should be understood that in these outer doors there is no spindle passing through the door and absolutely no connection from without to the bolt work; after the doors are closed and locked everything depends on the time lock and automatic device. All of the outer inside parts of doors are beautifully etched and plated, and enclosed within a heavy plate glass door etched with handsome designs.

The safe deposit vault contains several hundred steel boxes, secured by locks of the latest pattern which are to be rented to customers. The use and possession of these boxes is private in every sense of the term, access to them being impossible except to renters who hold the appropriate keys. Connected with the vault are rooms which are at the disposal of its patrons, in which tables, seats and writing materials are to be found, and where persons can be completely isolated in the examination of the contents of their boxes. These rooms are finished in oak, are nicely carpeted and lighted with gas. This vault furnishes security as nearly perfect as human ingenuity has devised and as it is greatly needed in a community as wealthy as this, it will doubtless have that patronage to which its cost and excellence entitle it. To persons to whom such matters are of practical importance alone, and to those who enjoy viewing the delicate results of mechanical skill or the exquisite touches of the artist's hand, these vaults are of equal interest, and they are freely shown by the officers of the bank to any who wish to inspect them.

## A TEXAS EXHIBIT.

A SPECIAL CAR AT THE PASSENGER DEPOT.

A special exhibit car from Ft. Worth, Texas, has arrived in this city from Milwaukee, over the Chicago, Milwaukee & St. Paul Railway. The car is under the management of T. A. Wilkinson, immigration commissioner of the Ft. Worth and Rio Grande Railway Company. The contents of this car have been on exhibition at the Milwaukee Industrial Exposition and at the Elkhorn district fair. It contains a unique collection of the products of western Texas, a territory tributary to the city of Ft. Worth, and through which the Ft. Worth & Rio Grande Railway is now being built, on its route southwest from Ft. Worth, Texas, to the Bay of Topo Bam-po across the country of Old Mexico to the Pacific coast. The car contains fruits, grains, grasses, marble, granite, lithograph stone, coal, iron ore, and many other products of western Texas, from a part of the state heretofore regarded as only adapted to cattle raising. The car will remain for public inspection until to-morrow evening. Both ladies and gentlemen are cordially invited to call and examine its contents, near the passenger depot. Mr. Wilkinson will give a talk to our citizens on the "Current and Undercurrent," of Texas progress at the Business Men's rooms this evening at 8 o'clock p. m. All are invited to come. Mr. Wilkinson is a former student of Milton college and served in the Union army from the state of Wisconsin.

## THE WEATHER.

At seven o'clock yesterday morning the thermometer indicated 43 degrees above zero. Cloudy with southeast wind. At one o'clock p. m. the register was 67 degrees above zero. Cloudy, with south wind. For the corresponding hours last year the register was 26 and 56 degrees above zero. At seven o'clock this morning the thermometer indicated 55 degrees above zero. Cloudy with southeast wind. At one o'clock p. m. the register was 65 degrees above zero. Cloudy with south wind. For the corresponding hours one year ago the register was 46 and 70 degrees above zero.

## Comfort and Cheer.

To many suffering hopelessly, the following words will come with comfort and cheer: Fulton, N. Y., January 30th, 1889. "I was on crutches with rheumatism of the limbs and given up to the prominent physicians. Suffered one and a half years. St. Jacobs Oil cured me. No return of pain since 1886."

JOHN DE COOR WOLCOTT.

## TODAY.

"BURTON AND INDIA PALE ALES" are acknowledged by judges to be superior to the Imported English Ales. They have the virtue of being strictly pure—nothing save malt and hops, and of the choicest quality, enters into their composition. Consequently all the nutritive and restorative properties those ingredients are known to possess are found judiciously blended in these brands of ale—Brewery east end Milwaukee street bridge.

## WOMAN'S RELIEF CORPS.

W. H. Sargent, Woman's Relief Corps No. 21, will meet in regular session at Post hall Tuesday, October 1st, at 2:30 p. m. A full attendance is desired.

M. B. MILTMOORE, Pres.

M. B. BURDICK, Sec'y.

Queen Victoria has a remarkable fine head of hair, for a lady of her age; but her son, the Prince of Wales, is quite bald. Had he used Ayer's Hair Vigor earlier in life, his head might, to-day, have been as well covered as that of his royal mother. It's not too late yet.

ward for sale by D. CONGER.

## METHODIST CONFERENCE

The Assignment of Presiding Elders and Ministers.

## REV. EATON AND EVANS

Will Occupy the Methodist Pulpits in Janesville the Coming Year.

Special to the Gazette.

FEAVER DAM, Wis., Sept. 30, 1890, 4 p. m.—Among the appointments just announced are the following:

Janesville—Court Street, E. L. Eaton; First church, M. Evans.

Fond du Lac—G. H. Trever.

Summersfield—Greighton; Grand Avenue, Halsey.

Appleton—Udylke.

Presiding Elder Milwaukee district—J. L. Hewitt.

Conference next year at Whitewater.

The many friends of Rev. Mr. Trever, while regretting to lose him, will rejoice at his promotion. The bishop desired him to take the Fond du Lac church which is one of the best in the conference.

## THE REASON WHY.

A LITTLE BUMP IN THE GERMAN LUTHERAN CHURCH.

We desire to state through the columns of the Gazette a few facts concerning the ruinings of the Rev. Mr. Albrecht, pastor of the German Lutheran church.

At the quarterly church meeting held yesterday afternoon, we were ruled out of the society and deprived of communion, because of our membership in the benevolent order, known as the "United Workmen." We claimed the right to belong to this insurance organization, because of the protection, furnished our families in case of death.

The reverend gentleman ruled that such right could not be granted to any member of his church in good standing, and because we would not give up our insurance and protection to our families were dismissed from the church. We believe that public sentiment, both in and out of the church, will condemn such action as narrow and bigoted, and prompted by a spirit in sympathy with the customs and usages of the dark ages. We regret that any such occurrence should transpire in an intelligent community; and for the sake of the church believe that the dictation of such authority can be but injurious. We know that many Germans in the city believe as we do in this matter, and the result will probably be another church society in the near future where men can worship God and protect their families according to the dictates of enlightened conscience.

O. H. KROCK,

JNO. BAUMAN.

## BRIEFLETS.

—The Woman's Foreign Missionary Circle of Court Street M. E. church will meet with Mrs. Abram Phelps 155 Pleasant street, on Wednesday of this week, October 2nd, at half past three in the afternoon. Officers for the coming year will be elected, and a brief programme presented. Let every member of the circle take notice and be present.

—General O. O. Howard has written an article for the young folks who read Wide Awake, which will also interest and enlighten their elders; we refer to the little paper in the October number entitled "How many Indians in the United States?" In the same number Miss Rose Kingley, Charles Kingley's daughter, has a valuable contribution about "The Boy who Invented the Telegraph"—Claude Chappe, a little French lad. Mrs. Goddard Orpen in her "Famous Stones" series, gives a very different page of French history in telling the story of "The Diamond Necklace." After excerpting Mrs. White's Public School Cooking paper about dainty preparations for invalids, and the hundred one by Mrs. Gavazza about "Sleep Suppers," and Prof. Starr's "Geological Talk," and Mrs. Clifton's "Behavior" letter, the remainder of the number is given up to stories, poems and pictures, all of most interesting character; notable among the latter is Mr. Bridgman's amusing Court Calendar and the eighteen Prize Nonsense Animals, the most remarkable chapter known of modern natural history. The poems include contributions from Graham K. Tomeson, Mrs. Celis Thaxter and Mrs. Whitton Stone, all at their best. The cereals are Margaret Sidney's "Peppers" and Susan Colquhoun's "Little Knight of Labor." The short stories, all true ones, are "Patsy at Scott's," by Leigh Young, "Nicbe" by Anna H. Wayne, "Salem Glitsters," by Elizabeth M.ritt Gosse, and "Tom the Star Boy," by Miss Rieley Seward, the latter a tale of Washington and the Rocky Mountains. Wide Awake is \$2.40 a year. D. Lothrop Company, Publishers, Boston.

## Breathing the Germs of Disease.

To inhale the germs of disease with their deadly breath is the fate of denizens of malarial-scourged localities everywhere. The endemic atmospheric poison may, however, be refuted of its venom and rendered innocuous by a defensive use of Hostetter's Stomach Bitters. This prominently safe and effective remedy and safeguard not only eradicates the disease when developed, but enables the system to safely brave its attacks. Every physical function is confirmed or restored to regularity, the circulation quickened if sluggish, and a bilious habit, which of itself begets a proneness to both intermittent and remittent types of malarial disease, where endemic atmospheric causes exist, powerfully counteracted by this inviolable fortifying and defensive agent, which has, moreover, none of the disagreeable characteristics of a drastic cathartic or an alkaloid. Fever and ague, dumb ague and ague cake, and the cold chills of the latrums, are conquered by it, surely, pleasantly, Rheumatism, neuralgia, gout, kidney and bladder troubles, constipation and indigestion yield to it.

## Attention! Light Infantry.

The regular semi-annual muster of the company will be held in the armory on Monday evening, September 30th. All members are requested to be present on that occasion. Roll call at 8 o'clock sharp. By order of F. H. KOEHLIN, Captain.

## TOBACCO SALES.

Sales of Seed Leaf tobacco reported by J. S. Gans' Son & Co., Tobacco Brokers, No. 131 Water street, New York for the week ending Sept. 30, 1890.

300 cases, crop of 1888, New England Havana, at 15 to 40 cents.

500 cases, crop of 1888, Havana, at 12 to 14 cents.

300 cases, crop of 1888, New England Seed Leaf, at 19 to 25 cents.

400 cases, crop of 1888, Wisconsin Havana, at 10 to 12 cents.

150 cases, crop of 1887, Wisconsin Havana, at 11 to 13 cents.

300 cases, crop of 1888, Pennsylvania Havana at 11 to 14 cents.

300 cases, crop of 1888, Dutch, at 9 to 12 cents.

200 cases, crop of 1888, Ohio, at 8 to 10 cents.

200 cases, Sundries, at 55 to 55 cents.

Total, 2,850 cases.

## Reduction in Price of Gas.

Office of New Gas Light Co.,

Sept. 30, 1890.

On and after October 1st, 1890, the price of gas will be \$2.00 per thousand
